Subject: Complaint about construction of a retaining wall at mouth of channel adjacent to the Petaluma River

Hi Yasmin Mora,

Thanks for taking my call. The call stated that she lived in the Hunter's Club Tract near the intersection of Grandview Road adjacent to the Petaluma River and that a retaining wall has been constructed at the mouth of the channel under the RR bridge which blocks channel flow and will cause flooding. Based on the information in the telephone complaint, I believe the work is occurring somewhere in the channel shown in the attached image.T

In 2014, we issued the attached permit to SMART for tidal marsh restoration north of this site. This permit doesn't seem to cover any work that may be occurring in the pictured location.

I would appreciate your assistance in determining if the report regards work being undertaken by SMART and, if so, under what BCDC permit number is the work occurring? If you are able to conduct a site inspection and send photos I would be very obliged. If SMART is not conducting any work in this area at this time, do you have any suggestions for a county contact person? I believe this is still Marin County but I'm not 100% sure..

Thank you for your assistance in this matter.

Sincerely,

Adrienne

Subject: RE: Complaint about construction of a retaining wall at mouth of channel adjacent to the Petaluma River

Date: Friday, April 1, 2016 at 10:31:26 AM Pacific Daylight Time

From: Yasamin Mora Serrano

To: Klein, Adrienne@BCDC

Hi Adrienne,

Based on the information you provided my engineers tell me that SMART did not install any retaining walls at the Haystack bridge, and the Grandview Road in Petaluma is way over by the bowling alley and on the opposite side of the river from the tracks.

Maybe City of Petaluma Public Works can assist you with this.

Good luck!
